# What do you understand by the theme Sustainable and Inclusive City?

## CAPABILITY

For culture is not just about a set of material, aesthetic forms. It is also about ways of life and collective identity, and it can cultivate or constrain the development of people's **capabilities** and their ability to **flourish**

## THE 'DOUGHNUT ECONOMY'

# How can the New European Bauhaus have an impact on your field?

- World Cities Culture Forum is the leading network of 40 global cities who share policy challenges and learnings. Arguably world city cultural policies have focused too much on ‘working’ (attracting the creative class) and ‘playing’ (tourism and leisure) – and not enough on ‘living’.
- NEB, therefore, resonates across global context as forward thinking world cities are now focusing on:
  - Environmental Sustainability
  - Equity and Inclusion
  - Quality of Life

# **What role do you understand cross-fertilisation strategies play in your field? & What specific role do you give to the creative aspects in your field and in the NEB?**

- Culture is a key ingredient of world cities' success – a golden thread that runs across all aspects of urban planning and policy.
- Initial research for World Cities Culture Report 2022:

The challenges of 21<sup>st</sup> Century cannot be met by one department alone

# Three experiences, ideas or actions from your field that can contribute to a sustainable, inclusive and beautiful Europe.

- **Oslo City's Climate Budget:** approaching CO2 emissions like city finances. Requires cross-sectoral commitment from private and public organisations across the city in order to achieve its objectives
- **New York**
  - **Creatives Rebuild New York:** Mellon Foundation \$125m for 'Artist-Centered Employment Programme and Guaranteed Income Programme Recognise Artists as Critical Workers'
  - **New Deal for Culture:** New York City Artist Corps \$25m to put local artists back to work
- **Bogota Citizenship Culture:** Participatory model for big city cultural policy
